

NOTICE TO ALL RESIDENTS

RE: LAUNDRY PRACTICES TO HELP DURING COVID-19

- Limit the number of people in the laundry room to ensure physical distancing of staying at least 2 meters away from others
- Leave the laundry room while the wash and dry cycles are in progress to assist with distancing
- Clothing and other laundry items should be washed as soon as possible after use to help prevent the spread of infection
- Limit laundry room visits to the loading and unloading of washers and dryers only
- Fold clothes in the comfort of your own home and NOT in the laundry room
- Don't shake or hug dirty laundry
- Don't leave soiled laundry or baskets on top of machines
- Don't leave cleaning product residue in machines
- Some guidelines suggest using high heat wash and dry settings
- We regularly wipe down high touchpoints in the building including in the laundry room, but **remember to thoroughly wash (or sanitize) your hands any time you come into contact with “high touch” surfaces and avoid touching your eyes, nose and mouth**
- Please continue to have patience. These are challenging times for all residents, and we should continue to work together to follow best practices.

Keep safe and well.
